

## MCIEA Performance Assessment Task Bank

### ***Redefine Student Assessment across Massachusetts!***

Performance assessments are being designed by MCIEA teachers and implemented across all MCIEA districts. We are looking for teachers to submit tasks for inclusion in the MCIEA Performance Assessment Task Bank!

- Tasks in the task bank will serve as models of high quality performance assessments.
- The task bank serves as a pool of performance assessments from which districts can draw for local assessment purposes and enhancing the curriculum.
- These tasks will be used to make student proficiency determinations and help us understand how educators in different districts view the quality of student work.

If you have a task that you are ready to submit for review and inclusion in the MCIEA Performance Assessment Task Bank, go to <https://tinyurl.com/MCIEAtask>. You may submit multiple performance tasks. For every performance task submitted and approved for inclusion in the MCIEA Performance Task Bank, submitting teachers will receive 10 PDPs!

All performance tasks that are submitted to the MCIEA Performance Assessment Task Bank must have at minimum:

- (1) A completed MCIEA performance task template: [MCIEA Task Template 2.0](#)
- (2) Student directions
- (3) A rubric

Other materials may be included in your submission.

Each submitted task will be reviewed by a pair of MCIEA teachers who have undertaken professional development in performance task validation review. Upon review, the reviewing teachers may reach out to you to discuss feedback and suggestions for improving the task prior to submission to the task bank.

***Join the movement! Work with your teams and CCE coaches to design high quality performance assessments, and submit them to the MCIEA Performance Assessment Task Bank by June 15, 2020!***

If you have any questions, talk to your MCIEA school coach or email Gary Chapin, [gchapin@ccebos.org](mailto:gchapin@ccebos.org).
